

## Kyle A. Wilson

AIA, LEED AP BD+C  
Vice President - Architecture

Having begun his architectural career as an intern for TEG 14 years ago, his primary responsibilities now include the planning and design of projects from initiation through the design development phase. His projects have included those most notable to the firm, and represent cross-section of markets: healthcare, education, sports/recreation, municipal, research and commercial. He is also the Director of Project Production which includes the oversight of scheduling and manpower allocations for all TEG projects. He works collaboratively with his fellow leaders and team to ensure that the proper resources and right team members are allocated to best suite a particular project. His interests and focus are problem solving and developing facility solutions that enhance communities. Together, Wayne, Erie and Kyle established the Design + Efficient Care Metrics, benchmarking designs to national standards.

His personal passion is baseball; specifically the St. Louis Cardinals. He and Melissa to travel to St. Louis to take in the games, and now are excited to share that with young A.J. He has been active in Big Brothers and Big Sisters of Kentuckiana, and volunteers at the Clark County Youth Shelter; Kyle is also on the Board of Directors at Childplace.
